Subject: Questions Regarding FCC ID: AL8-D100X

To: Mr. Alvin Ilarina/ Plantronics
From: Mr. Gregory Czumak / PCTEST TCB
RE: FCC ID: AL8-D100X

Applicant: Plantronics

Correspondence Reference Number: AL8Y0286
Confirmation Number: Y1003120286
Date of Original Email: March 18, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The FCC ID label shows an FCC DoC logo. Is the pc peripheral (JBP) portion of the EUT authorized under DoC? If so, then there is no need to submit the 15B test report. If the JBP portion is not authorized under DoC, but rather, certification is sought for it, then the DoC logo must be removed from the FCC ID label- please do so and resubmit it.

Please disregard the submitted Part 15B test report. We would like to continue with DoC for the pc peripheral

portion of the EUT.

2. In the 15D test report, p. 15/101 lists the maximum measured output power as 18.83 dBm, but the test data (pp. 25-27) shows that the highest measured output level is 18.62 dBm. Please revise the table on p.15 accordingly.

Please find attached the corrected report "11_Base D100 Certif Testing Record Final_March23_2010.pdf".

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
