Subject: Questions Regarding FCC ID: AL8-WH500

To: Mr. Alvin Ilarina/ Plantronics
From: Mr. Gregory Czumak / PCTEST TCB

RE: FCC ID: AL8-WH500

Applicant: Plantronics

Correspondence Reference Number: AL8Y100757
Confirmation Number: Y1006160757
Date of Original Email: June 25, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The EUT, in wideband mode, utilizes 2 time slots of 24, which is a duty factor of 8.3%, as stated in the KDB to the FCC as well as the RFx analysis. Page 2 of the Operational Description, however, lists the wideband duty factor as 7.8%. Please clarify.

The duty factor of 8.3% is the calculated maximum for 2 of 24 time slots. The duty factor of 7.8% reported in the operational description was measured as shown in Figure 4 of the operational description document. The duty factor for the system will not exceed 8.3%.

2. FYI: in the future, please include more detail regarding the RF section of the transmitter in the block diagram.

Noted, we will include more detail in our next filing.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
