

Non-Conformities FCC ID: AOI9PGTPL-100A (CKC CS Ref # E07-000021-01)

The items listed below represent requests for information following review of this application for certification under United States (FCC) regulations. . Further question may arise pending review of responses to these items.

- 1 Please confirm application purpose: CKC CS understands this is due to an enclosure change whereby the transmitter circuitry is unmodified; PCII filing is due to degradation in characteristics previously reported.

Response: the enclosure and the Model Number have changed prompting the request.

- 2 Specifically, please confirm power output listing for this equipment; has power output been affected?

Response: The power output has not changed.

- 3 Please confirm FAA approval has not changed for this equipment.

Response: The FAA approval is still valid.

- 4 Regarding test report provided, limits are defined in 87.139 as an attenuation requirement, please provide updated test report. Additionally, please provide method of deriving spec limit.

**Response: A revised test report has been uploaded. The spec was derived as follows:
FCC RF Power Out 94 dBuV (43 + 10 log pY) attenuation.**
