Hi Helen,

Attached is a revised Bluetooth test report and FCC ID label location exhibit.
Please replace the previously submitted material with these files and let me know if you have any further comments. Thanks.

Regards,

Steve Petruska
Sharp Electronics Corp.

Question #1: The Bluetooth test report (page 34) - The 20dBc measurements are confusing. Two rows list the same frequency 2400MHz. Is there a typo? Please update the test report.

Question #2: All EUT photos are requested to keep short-term confidential, but the FCC ID label format clearly shows the back of the EUT. You may wish to remove the photo and replace it with a simple textbox to illustrate the outline of the device.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
