# First Step Guide

Before Using Handset ii
Handset Functions vii
General Notes xii
Customer Service xv

See Online English Manual for "Safety Precautions."

### **Before Using Handset**

#### Accessory

Battery (SHBCC1)

#### **Battery Installation**

Remove cover

- Press and slide as shown.
- Insert battery

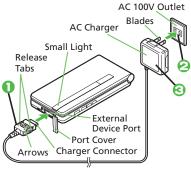

**Close cover** 

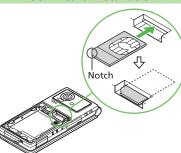

#### Charging

Use specified AC Charger **ZTDAA1** (sold separately) only.

- Open Port Cover to connect AC Charger
- Plug AC Charger into AC outlet
  - Small Light illuminates red while charging.
  - Small Light goes out when battery is full.
- After charging, unplug AC Charger, then disconnect handset

#### **USIM Card Installation**

- Slide in USIM Card with IC chip facing up
- Insert battery (P.ii)
- First power off handset and remove battery.
- Do not force USIM Card into/out of handset.
- USIM Card must be inserted to use handset.

#### **USIM PINs**

#### ■ PIN

4-digit code; activate PIN Entry to restrict usage.

#### ■ PIN2

Required to clear Call Costs and to set Max Cost.

PIN and PIN2, **9999** by default, are changeable.

#### ■ PIN Lock & Cancellation (PUK Code\*)

Entering incorrect PIN or PIN2 three consecutive times locks USIM Card, disabling handset. Enter PUK Code to unlock. For details, contact SoftBank Customer Center, General Information. \*USIM Personal Unblocking Key (PUK Code) unblocks a USIM Card blocked after the wrong PIN has been entered three consecutive times. Each USIM Card has a unique PUK Code. Do not disclose it to unauthorized persons.

#### **Before Using Handset**

#### **Manner Mode**

#### ■ Minding Mobile Manners

Please use handset responsibly. Inappropriate handset use can be both dangerous and bothersome. Please take care not to disturb others when using handset. Adjust handset use according to your surroundings.

### Activating/Canceling Manner Mode ■ ② (Long)

#### **Security Codes**

#### ■ Handset Code

**9999** by default; use or change some functions.

#### **■** Center Access Code

4-digit code selected at contract; access Optional Services via landlines or change contract details.

#### ■ Network Password

4-digit code selected at contract; restrict incoming/outgoing calls (Call Barring).

- Message appears for incorrect code entries; retry.
- If Network Password is incorrectly entered three times consecutively, Call Barring settings are locked. To resolve, Network Password and Center Access Code must be changed. For details, contact SoftBank Customer Center, General Information.

### **Handset Functions**

#### **Basic Operations**

#### Handset Power On/Off

#### ■ Power On

(Long)

If Japanese appears first time 930SH powers on, press ① three times, choose lat 1 and press ②. In Standby, press ②, choose \*\*\(\mu\)!\(\overline{\pi}\) and press ③. In Main Menu, change interface to English (below).

#### ■ Power Off

(Long)

#### **English Interface**

● ⇒ 設定 → ● → Language → ● → English → ●

#### **Network Settings**

Retrieve Network Information to use Network-related services; the first time you press , o or , a prompt appears.

☑, • or № *Yes* • •

#### **Setting Clock**

● Settings ● Date & Time ● Set Date/Time ● Enter date and time (24-hour format) ● ●

#### My Phone Number

● ± 0

#### **Calling**

#### Voice Call

### **General Notes**

#### **Hardware**

#### **■** Mobile Light

Do not use Mobile Light near people's faces.

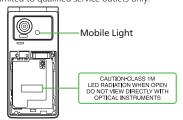

Eyesight may be temporarily affected leading to accidents.

#### CAUTION:

Use of controls, adjustments or procedures not specified here may result in harmful LED radiation. Mobile Light

CLASS 1 LED Product

LED emission level is harmful to eyes; do not attempt to disassemble the cabinet. Service is limited to qualified service outlets only.

#### ■Mobile Light LED Properties

- a) Emission Duration: Continuous
- b) Wavelength
  - White: 400 700 nm
- c) Maximum Emission Output

White: 240 µW (1.2 mW inside handset)

#### ■ Battery

Use specified battery or Charger only. Non-specified equipment use may cause malfunctions, electric shock or fire due to battery leakage, overheating or bursting.

Do not dispose of an exhausted battery with ordinary refuse; always tape over battery terminals before disposal. Take battery to a SoftBank Shop, or follow the local disposal regulations.

Charge battery in ambient temperatures between 5℃ and 35℃; outside this range, battery may leak/overheat and performance may deteriorate.

#### **Electromagnetic Waves**

For body-worn operation, this phone has been tested and meets RF exposure guidelines when used with accessories containing no metal, that position handset a minimum of 15 mm from the body. Use of other accessories may not ensure compliance with RF exposure guidelines.

#### **FCC Notice**

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

#### Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1. Reorient/relocate the receiving antenna.
- 2. Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

#### **FCC RF Exposure Information**

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government

The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.
Highest SAR value:

Model			On the Body
930SH	APYHRO00077	0.457 W/kg	0.478 W/kg

This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found at https://

cfm under the Display Grant section after searching on the corresponding FCC ID (see table above). Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Website at <a href="http://www.phonefacts.net">http://www.phonefacts.net</a>.

fiallfoss.fcc.gov/oetcf/eas/reports/GenericSearch.

#### **General Notes**

#### **European RF Exposure Information**

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide\*. Highest SAR value:

Model	At the Ear**	On the Body
930SH	0.682 W/kg	0.372 W/kg

As SAR is measured utilizing the device's highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the Network. The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a handsfree device to keep the mobile phone away from the head and body.

#### **Declaration of Conformity**

C € 0168

Hereby, Sharp Telecommunications of Europe Ltd, declares that 930SH is in compliance with the essential requirements and other relevant provisions of Directive 1999/SEC. A copy of the original declaration of conformity for each model can be found at the following Internet address: http://www.sharp.co.jpk.ta/

<sup>\*</sup>Please see Electromagnetic Waves on P.xii for important notes regarding body-worn operation.

<sup>\*\*</sup>Measured in accordance with international guidelines for testing.

### **Customer Service**

## SoftBank Customer Center From a SoftBank handset, dial toll free at

157 (General Information) 113 (Customer Assistance)

#### SoftBank Global Call Center From outside Japan, dial

+81-3-5351-3491 (International charges apply)

Call this number immediately if handset/USIM Card is lost or stolen while outside Japan.

#### Call these numbers toll free from landlines.

Can these numbers ton free from landines.
