(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

 Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1. Reorient/relocate the receiving antenna.
- 2. Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4. Consult the dealer or an experienced radio/TV technician for help.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg.

Highest SAR value:

Model	FCC ID	At the Ear	On the Body
SH009	APYHRO00127	0.399W/Kg	0.761W/Kg

This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found at http://www.fcc.gov/oet/fccid under the Display Grant section after searching on the corresponding FCC ID (see table above).

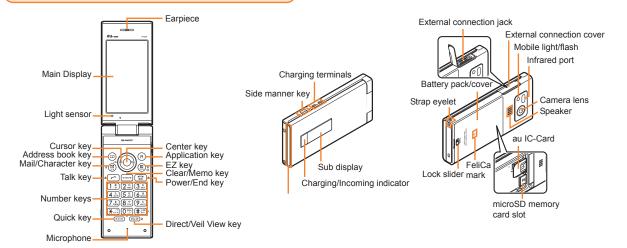

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA)

English Simple Manual (簡易英語版)

Turning Power On and Off

- Turning Power On
 - Hold down for at least a few seconds.
- Turning Power Off
 - Hold down for at least a few seconds.

Switching the Screen to English

From the stand-by screen: Press ⊙. ▶ Press 3. ▶ Press 6.

454 ▶ Press 2

Checking Your Own Phone Number and E-mail Address

From the stand-by screen: Press ⊙. ▶ Press ⊙.

Making and Answering a Call

Making a Call

From the stand-by screen: Enter the phone number you want to call.

Press .

To end a call: Press 😭

Storing and Recalling Address Book Entries

Storing an Entry

From the stand-by screen: Hold down \square for at least a few seconds.

- ▶ Use 🗘 to select the item you want to edit. ▶ Press (Select).
- ▶ Enter the data. ▶ Press A (Reg).

Recalling an Entry

- ▶ Use •• to select the tab for the record you want to recall.
- ▶ Use 🗘 to select the name of the record.
- ▶ Press (Detail) to view the record in detail.

Using the Camera (Movie and Snapshot)

Recording a Movie Clip

From the stand-by screen: Press **●**. ▶ Use **♦** to select "CAMERA".

- ▶ Press (Select). ▶ Select "Movie". ▶ Press (Select).
- ▶ Press ⊚ (Record) to start recording.
- ▶ Press (Stop) to stop recording.
- ▶ Press (Save) to store the movie.

Press (((() () (Pause) during recording to pause recording.

Press () in the Movie mode to change to the Photo mode.

Taking a Snapshot

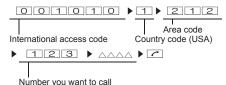

From the stand-by screen: Press **⊙**. ▶ Use **∲** to select "CAMERA".

- ▶ Press (Select). ▶ Select "Photo(W.paper Mode)". ▶ Press (Select).
- ▶ Press (Shoot) to take a snapshot.
- ▶ Press (Save) to store the photo.

Press () in the Photo mode to change to the Movie mode.

| Making an International Call

Ex: To call 212-123- $\triangle\triangle\triangle$ in the USA

Other Handy Features

Setting the Manner Mode

From the stand-by screen: Hold down 💬 for at least a few seconds. Repeat the above operation to disable the Manner Mode.

Setting the Answer Memo (Voice Recording)

From the stand-by screen: Hold down [92795] for at least a few seconds. Repeat the above operation to disable the Answer Memo.
