RE: FCC ID: APYNAR0051

Attention: Yukari Ito / Yoshiaki Iwasa

I have a few comments on this Application.

1. Please note that the technical specs state that the device has operating frequencies that lie outside those allowed in the US. Please verify that this device cannot be program selected via hardware or software or any other means to allow operation on channels higher than channel 11.
2. The report shows out of band emissions, but does not show band edge compliance data. Please provide the necessary band edge compliance plots/data.
3. There does not appear to be any information on the antenna used. Please explain

Dennis Ward
