December 18, 2002

Gentlemen:

Regarding the RPV599A Portable Transceiver currently being considered for certification, the following two items apply for the RPV599A to comply with part 80.203.

1. The following statement will be included in the programming manual:

"It is forbidden to transmit this device on marine frequencies 156.10 MHz (Marine Channel 02), 156.20 MHz (Marine Channels 04 and 04A), 156.025 MHz (Marine Channel 60), and 156.125 MHz (Marine Channel 62)."

2. Programming software, accessories, and procedures are issued only to authorized distributors and repair facilities. The radio cannot be programmed for any frequency change, including channel spacing (12.5/15 kHz vs. 25/30 kHz), by a user in the field.

Sincerely,

A handwritten signature in blue ink that reads "Brian W. Jones".

Brian W. Jones

Engineering Support Supervisor
