Columbia, Maryland 21046

Attention: Equipment Authorization Branch
Subject: Certification for FCC ID: AXATR-392-A2

Gentlemen,

Ericsson Inc. requests a change to the grant for the FCC Identifier- AXATR-392-A2. Presently the grant indicates the mobile is capable of operating in both 800 MHz Domestic Public Cellular Radiotelephone Communications Services per Subpart H of Part 22, and in the 1900 MHz Domestic Public Cellular Radiotelephone Communications Services, as per Part 24.

We are requesting the grant have an additional statement indicating the mobile can operate in the 800 MHz of Part 22 only along with the present dual band capability. Per a discussion with Mr. F. Coperich and Mr. R. Fabina, a request to have the grant list 800MHz only and 800MHz and 1900MHz is acceptable under certain circumstances. The attached exhibit explains how we plan to implement the required changes.

We are requesting confidentiality under 47 CFR 0.459 for exhibit 12, the operational description. Ericsson is employing confidential modifications to gain a competitive advantage thus justifying the request.

Measurements and calculations for RF exposure have been made on this radio. This unit complies with IEEE C95.1-1991 (ANSI/IEEE C95.1-1992).

Sincerely,

Jim Sponsler
