

FCC ID:AYS-IRALUKCETA

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Figure 1 - FCC Label

Note: Label is applied with water resistant clear tape with a permanent adhesive that covers the entire label, making it very difficult to remove without the use of a tool. The label is attached to the antenna housing which is not a removable part of the equipment. Because the label is attached to standard stock PVC piping, the use of engraving or printing is not possible.
