RE: Declaration of Similarity
FCC ID: AYV-TCB05

To Whom It May Concern:

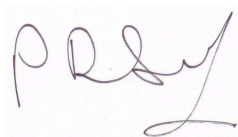

Please be advised that the models Timecode Buddy: mini trx and Timecode Buddy: mini rx are electronically identical, all RF measurements and test results are exactly the same.

The difference between the two models is purely in firmware, allowing the mini rx variant to operate in receive mode only. The mini trx model operates as a transceiver.

Thank you for your attention to this matter.

Yours faithfully

Timecode Systems Ltd
