Subject: Application for Permissive Change of MOSCAD-L P44-UHF FLN5922A (438-470 MHz), FCC ID: AZ 489FT4840

Attention: Mr. Frank Coperich,

Dear Mr. Coperich:

Motorola Communications herein submits application for Permissive Change of the MOSCAD Series Of Products to include a new product configuration for Equipment Authorization Certification.

This certification was issued for MOSCAD-L P44-UHF FLN5922A (438-470 MHz) Remote Terminal Unit. The new configuration is MOSCAD-M F4582A (438-470 MHz) and MOSCAD-M F4572A (438-470 MHz) Remote Terminal Unit. Again, both MOSCAD-L and MOSCAD-M use the same RF Module (438-470 MHz) Note that The only difference between F4581A and F4571A is the removal of an expansion board.

Attached in this submission is:

- The new operators/install. Manual (describing the use only as a "Base Station").
- Service Manual including Circuit and block diagrams and service information.
- Test report including spurious emissions.

A complete Permissive Change application is enclosed, Please feel free to contact Rob Stirling at (604) 218 1762 for testing details, or if you require any information about the submission.

Sincerely,

Rob Stirling, P.Eng
