Federal Communications Commission Laboratory
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Application for a Class 2 Permissive Change Request to Transmitter with
FCC ID: AZ489FT4871.

Dear Sir or Madam:

Motorola Inc, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits its application for a Class 2 Permissive Change Request of the subject transmitter.

The change is to replace Emission Designator 5K1F1D with **5K10F2D**. The reason for the replacement was that in the original application we inadvertently submitted the incorrect Emission Designator.

Please note that Motorola is submitting this application under FCC Rule Part 90.217, Exempted from Technical Standards due to the output power not exceeding 120mW.

The product testing was performed by Hermon Laboratories, which is listed by the FCC under Registration Numbers 90623 and 90624.

The subject transmitter complies with Section 90.203 of the Rules in that the operator cannot directly program transmit frequencies using the unit's normally accessible external controls.

Motorola is requesting that Exhibit 12 (Operational Description) not be made routinely available for public inspection. Motorola considers the information in these exhibits to be classified as trade secrets, pursuant to 47 CFR Section 0.457(d) and Section 552(b)(4) of the Freedom of Information Act.

Please mark Exhibits 12 as "Confidential".

Contact Mike Ramnath at (954) 723-5793 or Fax (954) 723-4794 if you require any additional information.

Sincerely,
/s/ Mike Ramnath (signed)
