

ATTACHMENT**TEXT FOR OET WEB SITE FOR FCC ID: AZ489FT5772**

This identifier has been placed on several different products, sometimes erroneously. To access FCC information for these erroneously labeled units examine the front of your radio product to determine the product line name, the correct FCC identifier and RF exposure information. Note that no information is on file for the r370 and r470 radio products.

Product Line	Correct FCC ID	Maximum Calculated SAR (Watts/kg)	SAR report file may be found at
r370	AZ489FT5772	Not on file
