Date: September 09, 1998.

Authorization & Evaluation Division.
Federal Communications Commission Laboratory.
7435 Oakland Mills Road.
Columbia, MD 21046.

Att: George Tannahill, Frank Coperich.

Subject: Application for Class II Permissive Change to Type Accepted Transmitter with
FCC ID: AZ489FT5774.

Gentlemen:

Motorola Inc. 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits it's
application for a Class II Permissive Change for the subject transmitter.

The change affecting the transmitter consists of substituting the existing Power
Amplifier, U502, with a low cost high efficiency Power Amplifier.

This change reduces the cost of the radio, improves transmitter attack time and does not
affect the specifications of the transmitter. The transmitter complies with the electrical
and mechanical inter-changeability Rule Part 2.1001 Section (a).

All other data on file with the Commission remains applicable. However, we are
attaching a FCC Form 731, RF Output data, Radiated and Conducted Spurious
Emissions data.

Contact me (954) 723-5793 or Fax me at (954) 723-4794, if you require any additional
information.

Sincerely,

Mike Ramnath
FCC Liaison
