

Date: March 03, 2000.

Authorization & Evaluation Division  
Federal Communications Commission Laboratory  
7435 Oakland Mills Road  
Columbia, MD 21046

Subject: Application for Certification of Transmitter with FCC ID: AZ489FT5765.

Attention: Frank Coperich.

Gentlemen:

Motorola Inc, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits it's application for Certification of the subject transmitter.

This transmitter is primarily intended for use in a portable radio application with capabilities for communications with a transmit power of 1-2.5 Watt. The Power is variable 40% of the value listed (1-2.5 Watt).

In the event that our current supplier of 2.5 ppm Oscillators cannot meet our demands, Motorola is supplying Frequency Tolerance Data for a 1.5 ppm Oscillator as an alternative source. However, the FCC Grant should show 2.5 ppm Frequency Tolerance.

The subject transmitter complies with Section 90.203 of the rules in that the operator cannot directly program transmit frequencies using only the unit's normally accessible external controls.

Enclosed is a complete Certification application. Contact me at (954) 723-5793 if you require any additional information.

Sincerely,

Mike Ramnath  
FCC Liaison
