**Re: Application for a Class II Permissive Change request to certificated transmitter with
FCC ID: AZ489FT5805 (Hand Held Data Terminal).**

Gentlemen:

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its' request for a Class II Permissive Change for the above Hand Held Data terminal with FCC ID: AZ489FT5805.

Motorola is adding an additional holster, ABF960, to the list of approved body-worn accessories. We have retested the Data Terminal with this new holster for SAR and found that the highest reported SAR value of 0.02 mW/g has changed to 0.12 mW/g.

The SAR performance of this product was verified by the A2LA certified Motorola EME Laboratory and compared with the measurements filed with the Federal Communications Commission for FCC ID: AZ489FT5805. We affirm that this Data Terminal device continues to comply with the uncontrolled environment limit of 1.6 mW/g, per FCC Rule Part 2.1093 (d). No other changes were done to this device.

This Hand Held Data Terminal continues to meet all FCC emission requirements for which Equipment Authorization was granted.

Please contact me at (954) 723-5793 if you require any additional information.

Sincerely,
/s/Mike Ramnath (signed)
FCC Liaison
