Re: **Application for a Class II Permissive Change request to certificated transceiver with FCC ID: AZ489FT5824**

Gentlemen:

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its' request for a Class II Permissive Change for the above transceiver.

Second source suppliers have been added for following list of devices, which are pin-to-pin compatible with the original parts. These devices are TCXO Module (Y600) and the DSP/CPU (U801) and Up-Mixer /Modulator (U500), alternative RFPAs (U501) and an Antenna Switch (U504). These additional devices are reflected in the attached revised Exhibit 10. The device with these second source suppliers is referred to as the iDEN **i710**.

Performance data for transmitter Radiated Spurious Emissions were obtained in accordance with 47 CFR 2.1053. The Spurious Emissions performance of this transmitter degraded somewhat as a consequence of these parts changes, but this transmitter continues to be FCC compliant. An updated Exhibit 6.4 (Figure 6.23 – 6.26) is also attached. All Spurious Emissions performance measurements were performed at the Motorola Plantation EMC Laboratory, FCC Registration No. 91932.

This radio product continues to meet all FCC emission requirements for which Equipment Authorization was granted. All data, including SAR, reported to the FCC at the time when Certification was granted continues to be compliant.

Motorola considers the information in Exhibit 10 to be classified as trade secrets, pursuant to 47 CFR Section 0.457(d) and Section 552(b)(4) of the Freedom of Information Act.

Please continue to mark Exhibits 10 as "Confidential."

Please contact me at (954) 723-5793 if you require any additional information.

Sincerely,
/s/Mike Ramnath (signed)
Manager, Regulatory Compliance
