Subject: Class II Permissive Change Request to add Hearing Aid Compatibility (HAC) to FCC Certified transmitter with FCC ID: AZ489FT5828, iDEN i836.

Gentlemen;

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its Class II Permissive Change Request to add Hearing Aid Compatibility (HAC) to FCC Certified transmitter with FCC ID: AZ489FT5828.

The grant for the subject FCC ID applies to the Motorola iDEN model number i830. Since the issuance of the grant a cosmetic variation was designed as the model i836 that is currently mass produced and shipping under a Class 1 Permissive Change.

A sample of the i836 was taken from stock and measured in accordance with industry standard procedures. A report of the measurement data is attached. The measurement results were compared in the report with the field strength limits in Table 7.4 of the PC63.19-2001 rd 3.6 standard.

As a result Motorola herein declares that the iDEN i836 model complies with the near-field strength technical requirements of FCC Rule 47 CFR 20.19.

Enclosed is a Cover Letter and HAC Compliance Reports for the iDEN i836 model.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,
