Re: FCC ID: AZ489FT7001
Grantee: Motorola, Inc.

Gentlemen:

On behalf of Motorola, Inc., we request Certification for the above referenced Intentional Radiator under Part 15. The Emerald Model: F5071A contains two previous Certified Intentional Radiators, previously approved under the FCC ID's: H9PLA4137 and H9PCRS1. We have submitted the appropriate supplemental test data for each Intentional Radiator, (SAR, EIRP & spurious emissions) and all exhibits required for the integration of these two devices into the Emerald. We would like to refer to data originally filed by Symbol Technologies, Inc. and accepted by the FCC for the FCC ID's: H9PLA4137 and H9PCRS1 for the other relevant exhibits. The original data for both of these Intentional Radiators has been uploaded with this application, as part of the complete package of supporting exhibits.

The Emerald uses both of the Intentional Radiators exactly as originally Certified meeting the definition of identical as defined by Part 2.908. Motorola, Inc. makes no physical or electrical changes to the device. The internal Emerald antenna is new, being different than the antenna Certified originally with the referenced FCC Identifiers.

Thank you for your time and consideration of this application. Please contact the undersigned for a prompt response should you require any additional information concerning this request for Certification.

Sincerely,
