Re: FCC ID: AZ489FT7002  
Grantee: Motorola, Inc.

Gentlemen:

On behalf of Motorola, Inc., we request Certification for the above referenced transmitter under Part 24. The transceiver in the Model: DIAD III +GPRS has been previously approved as an OEM module under the FCC ID: IHDT6AC1. We have submitted the appropriate supplemental test data and exhibits for the integration of this "module" into the DIAD III. We would like to refer to data originally filed and accepted by the FCC for the FCC ID: IHDT6AC1. This original data has been uploaded as part of the supporting exhibits with this instant application.

The newly identified device uses the identical wireless data modem originally Certified as defined by Part 2.908. Motorola, Inc. makes no physical or electrical changes to the wireless data modem. The antenna is integrated within the DIAD III housing and is different than the antenna originally Certified with the referenced FCC Identifier.

Thank you for your time and consideration of this application. Please contact the undersigned for a prompt response should you require any additional information concerning this request for Certification.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
