Re: FCC ID: AZ489FT7003  
Applicant: Motorola, Inc.  
Models: F4415A , VA00016AA, VA00024AD

Gentlemen:

Spectrum Technology, Incorporated has tested the above referenced HDT 600, hand held terminal which contains three co-located transmitters. The measurements were made in accordance with the applicable requirements contained in the Parts 2, 15 and 24 of Title 47, CFR. To the best of my knowledge, these tests were performed using the criteria established in ANSI, TIA, FCC or other Industry standards. The results of these measurements demonstrate the equipment complies with the Part 15 and 24 limits with the following three devices:

- 1.) The "New" Bluetooth intentional radiating device, complies with the limits established Part 15.247 for FHSS devices and complete test data has been submitted.
- 2.) Supplemental measurements of the previously Certified transmitter, FCC ID:H9PLA4121 show continued compliance with the limits established in Part 15.247 for DSSS devices.
- 3.) Supplemental measurements of the previously Certified transmitter, FCC ID: IHDT6AC1, operating under Part 24 confirm this transmitter continues to comply with the established limits.

The digital device emissions were measured and verified to meet the Part 15.109, (a) limits applicable to Class B digital devices. The applicable rule sections are listed in the three test reports either contained in Exhibit 6 or uploaded with the application..

The open area test site used for the radiated emissions measurements is located at Fluke Park II in Everett, Washington. The site information required by Part 2.98, measured in accordance with ANSI C63.4-1992, was most recently renew with the FCC and accepted by the FCC Sampling and Measurements Branch in August of 2001.

This site is also acceptable to Industry Canada for the performance of radiated measurements. Test site information required by RSS-212, Issue 1 (provisional) was most recently renewed with IC in January 2002. The site file number is IC 2089.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro".

Rod Munro
