Re: Form 731 Confirmation Number: EA283871 with FCC ID: AZ489FT7010.

Dear Mr. Lyles,

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its response to the 16th June 2006 request for information in Correspondence Number 31114.

Q1) FCC ID AZ489FT7010 is for two transmitters (eqpt. class DTS and DSS) integrated into a specific handheld and body-worn terminal.
We note that desc. field says: Handheld Terminal with GPRS, WLAN & Bluetooth We understand this final-product handheld-terminal will always be marketed containing also a specific integrated pt22/24 transmitter (eqpt. class PCB) which has separate FCC ID: IHDT56DB1.

Because this is composite device FCC ID and application containing pt22/24 SAR test results, a separate same type of Class II permissive change application is needed on file at FCC not TCB for associated FCC ID IHDT56DB1 - please submit.

R1) The above noted Class 2 Permissive Change for FCC ID: IHDT56DB1 was approved by the FCC on 23rd May 2006.

Q2) SAR test setup and device photos not found - please submit.

R2) See the attached Test Set-Up Photos as requested.

Please contact me at (954) 723-5793 if you require any additional information.

Sincerely,
/s/ Mike Ramnath (signed)
Manager, Regulatory Compliance
