Federal Communications Commission Laboratory
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Response to FCC Correspondence Number 85799 for FCC ID: AZ489FT7036 with Form 731 Confirmation number TC642409.

Dear Sir or Madam:

Motorola Inc, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein responds to number 85799 dated 1st June 2010.

Please note that this equipment is marketed in the US for FCC and NTIA customers, Canada and other international countries where the band is still harmonized at 764 MHz. For example, Canada's RSS 119 list the 700 MHz band as 764-770 and 794-800 MHz. Please note that having the frequency starting at 764 MHz, also, aids in inter-operability with other NTIA customers. The FCC Grant note states "This Grant has extended frequencies as noted in the filing and Section 2.927(b) applies to this authorization".

In addition, a FCC License is required for users, including Public Safety Agencies, before they can operate on these frequencies.

Motorola trust that the above satisfies your requirements.

Sincerely,
/s/ Mike Ramnath (signed)
Manager, Regulatory Compliance
