

**EXHIBIT 2**

**Statement of Certification**

(Pursuant to FCC Part 2.907, 2.908 and RSP 100 Sec 4)

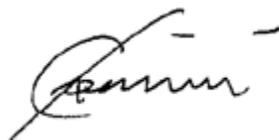

2.1 **Statement of Certification**

Transceiver type described herein (AZ489FT7084/109U-89FT7084) is in compliance with all applicable parts of the FCC rules and ISED RSS standards.

Each unit manufactured, imported, or marketed will conform to the samples tested herein, within the statistical variations that can be expected due to high volume production and test measurement error.

2.2 **Attestation Statement (Equipment Class DTS and DSS – Bluetooth/WiFi)**

This device contains an embedded Bluetooth device and WiFi device that are compliant with the applicable FCC Part 15C and ISED RSS 247 regulations.

**Part 15.247 (a)(1) / RSS 247 Section 5.1**

- The hopping sequence must be pseudo random.
- Each frequency must be used equally on the average by each transmitter
- The receivers input bandwidth is approximately equal to the transmit bandwidth
- The receiver hops in sequence with the transmitted signal

**Part 15.247 (g) / RSS 247 Section 5.1**

- The system is designed to comply with all of the regulations in this section when the transmitter is presented with a continuous data (or information)

**Part 15.247(h) / RSS 247 Section 5.1**

- The system does not coordinate its channel selection/hopping sequence with other frequency hopping systems for the express purpose of avoiding the simultaneous occupancy of individual hopping frequencies by multiple transmitters.

## **Declaration**

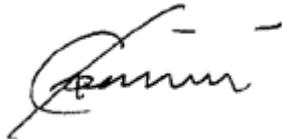

To whom it may concern,

This is a WLAN/Bluetooth combination antenna with **FCC/IC ID: AZ489FT7084/109U-89FT7084**. This WLAN/Bluetooth co-existence mechanism is to ensure that the WLAN and Bluetooth transmitters would not simultaneously operate. Therefore, WLAN and Bluetooth antenna in **FCC/IC ID: AZ489FT7084/109U-89FT7084** should not be considered to be able to transmit simultaneously.

Though the users can use WLAN and Bluetooth simultaneously, but the real situation is that WLAN and Bluetooth are used by time sharing and no overlap transmission.

Should you have any question, please have my best attention.

Sincerely yours,

---

## **Declaration**

We, **Motorola Solutions, Inc.**, declare that the device, **FCC ID: AZ489FT7084**, does not support any non-US channels in all the operational mode(s) in the US market. All non-US frequencies, US 2.4G channel 12-13 and Country code selection are disabled through proprietary software and are not user changeable.

Should you have any question or comment regarding this matter, please do not hesitate to contact me.

Sincerely yours,

---
