Authorization & Evaluation Division  
Federal Communications Commission Laboratory  
7435 Oakland Mills Road  
Columbia, MD 21046

Subject: Application for a Class II Permissive Change of Transmitter with FCC ID: AZ492FT3791.

Attention: Frank Coperich.

Gentlemen:

Motorola Inc, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits it's application for a Class II Permissive Change of the subject transmitter.

The change consisted of adding Emission Designator 5K60F2D to accommodate splinter channel frequencies in the VHF band. There are no hardware changes to the transmitter and all data on file with the FCC continues to be complaint.

We are attaching Emission Designator plots for 5K60F2D. The input signal has a modulation of 1.2 kHz with Deviation of 1.6 kHz, which is 2.8 kHz times 2 equal 5.60 kHz, according to Carson's Rule.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,

Mike Ramnath  
FCC Liaison
