Columbia, MD 21046

Subject: Response to Correspondence Number 40338 for FCC ID: AZ492FT7045 with EA329816

Dear Stan:

Motorola, 8000 West Sunrise Boulevard, Fort Lauderdale, Florida, herein submits responses to the above correspondence dated 9<sup>th</sup> September 2011.

Q1. In order to demonstrate compliance with the requirements of § 90.203(p) the manufacturer is required to submit an attestation that clearly states the following: The user device submitted for certification in this application provides support for 3GPP Band Class 14 frequencies and 3GPP Standard E-UTRA release 8 (or future releases) with associated interfaces in order to support service and network capabilities that are documented in the Commission's Waiver Order, released on May 12, 2010, Interoperability Order, released on December 10, 2010, and 3rd Report and Order, released on January 26, 2011 and all future requirements.

R1. Motorola affirms that the VML700-LTE Vehicular Modem, provides support for 3GPP Band Class 14 frequencies and 3GPP Standard E-UTRA release 8 (or future releases) with associated interfaces in order to support service and network capabilities that are documented in the Commission's Waiver Order, released on May 12, 2010, Interoperability Order, released on December 10, 2010, and 3rd Report and Order, released on January 26, 2011 and future requirements.

Sincerely,

Mike Ramnath (signed above)
