Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID: AZ492FT7089

Dear Sir/Madam,

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

New Transmitter Board with the following changes:

- New RFPA Final Devices (pin to pin compatibility with the existing device) and associated matching component circuitry.
- Few active components in the DC path which has no impact to the RF performance.

B. PERFORMANCE DIFFERENCES:

EME & EMC & RF testing has been performed and no degradation found compared to the previous filing and still within the FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted.

Sincerely,

Deanna Zakharia
Regulatory Compliance Manager
