

Item	Requirements	EUT
1	Have its own RF shielding	No. The shielding is not fully covered the RF part. Apply for Limited Modular Approval. The module was limited to be installed into the specified host. The host manufacturer is: GT-tronics HK Ltd. Host Brand name is: GT-tronics; Host model number is: BTSPK.
2	Have buffered modulation/data inputs (if such inputs are provided)	All inputs to the modules are buffered through logic and microprocessor inputs
3	Have its own power supply regulation	Module has no own power supply. It must be connected with host while working.
4	Meet the antenna requirements of section 15.203	The device contains a PCB antenna, and the maximum antenna gain is 0dBi.
5	Demonstrate compliance in a stand-alone configuration	Device is tested in a test fixture in a standalone configuration
6	The licensed module must have a FCC ID label on the module itself. That FCC ID label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily removed. If not, a second label must be placed on the outside of the final device that contains the following text: Contains "FCC ID: B4OBC5MMFPX"	FCC ID label format will be included in the filling. Host ID label will be displayed on the host system.
7	The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.	Please refer to "User Manual" Exhibit
8	The module must comply with RF exposure requirements. See FCC Rules. Spread Spectrum transmitters must comply with RF exposure limits	RF exposure evaluation is exempted because of low output power (EIRP: 2.6mW).
