

# UTC Fire & Security

A United Technologies Company

8/22/2013

Federal Communications Commission

To Engineering Review:

Ref.: FCC ID B4Z-984-PANIC, Wireless Personal Help Button Model TX4200-01

Enclosed please find an application for approval of the referenced device per CFR 47 Part 15.209 for a low-power rf transmitter used with security systems.

When the button is depressed, a low power, amplitude modulated signal is sent to a security system which will respond with a local alarm and/or will send a message to a monitoring system depending on the system programming.

Transmit frequency is 319.5MHz.

Transmissions shall cease within 5 seconds of activation and uses the Duty Cycle Correction Factor as calculated in the Test Data and found in CFR 47 **§15.231 and §15.35(c)**.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

***Rick Conner***
