

Name:	Overhead Door
Product Name:	Wireless Adaptor
Certification Number: (IC:)	IC: 2133A-915AD FCC: B8Q-915AD
Customer Reference No:	Model No.: GN, OA.

The EUT is installed in the garage door opener in the photo. It is the device with the green led plugged into the front of the garage door opener assembly.

The EUT board was not placed in its plastic enclosure so that the channel could be changed during testing. Evaluation with and without housing configurations have been conducted and the current without housing configuration is the worst case of emission configuration, therefore the compliance of emission for the final product is confirmed.
