To whom it may concern,

The FCC statement for Class A products is not shown on the CRVSB-07BR regulatory label but is in the CRVSB-07BR System Administration Guide (manual). This verbiage was too long to add to the regulatory label. There was not enough room on the label. The section that describes using the text in the manual or on the label is section 15.19 A5 Part 15 FCC rules.

Sincerely,

A handwritten signature in dark ink that reads 'Brian Collins'. The signature is fluid and cursive, with the first and last names being more prominent.
