Dear Sirs:

HSTNH-B19C has a WLAN/Bluetooth combination antenna with FCC ID: B94HHB19C. This WLAN/Bluetooth co-existence mechanism is to ensure that the WLAN and Bluetooth transmitters cannot simultaneously operate. Therefore, the WLAN and Bluetooth antenna in HSTNH-B19C should not be considered to be able to transmit simultaneously.

Users can use WLAN and Bluetooth simultaneously, but WLAN and Bluetooth are used by time sharing and with no overlapping transmission.

If you have any comments or questions, please feel free to contact me.

Sincerely,

Walter Overcash
