Federal Communications Commission
Authorization and Evaluation Division

Request for Limited Modular Approval for FCC ID: B94HNQR03

Item	Requirements	EUT
1	The modular transmitter must have its own RF shielding.	The modular transmitter is equipped with its own metal shielding.
2	The modular transmitter must have buffered modulation / data inputs.	The EUT has buffer modulation / data inputs.
3	The modular transmitter must have its own power supply regulation.	The EUT has its own power supply regulation.
4	The modular transmitter must comply with the antenna requirements of the Section 15.203 and 15.204(c).	The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo of antennas are shown in the External and Internal photos.
5	The modular transmitter must be tested in a stand-alone configuration.	The module was tested on evaluation board which is a stand-alone HW.
6	The modular transmitter must be labeled with its own FCC ID number.	The modular transmitter will be labeled with its own FCC ID and host devices will be appropriately labeled.
7	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The modular approved transmitter complied with all applicable rules. The device will not be sold to other companies for use in their devices or to end users.
8	The modular transmitter must comply with any applicable RF exposure requirement.	With the dedicated antenna (2.4GHz: 3.6 dBi, 5GHz: 4.76 dBi) the modular transmitter is compliant with the FCC RF exposure requirements for fixed and mobile applications. Refer to RF Exposure Exhibit.

Effective Date: Immediately.

Sincerely,

Walter Overcash
