

# **Product Photographs for RMN RSVLD-1301**

**FCC ID: B94RSVLD1301**

**IC: 466F-RSVLD1301**

Notes:

- 1) This collection of photographs shows the interior boards in two versions: An early proto-type version constructed with a red color PCB and a later final version constructed with a green color PCB. The WLAN board is an existing module and shown as a blue PCB
- 2) The barcode labels shown in some photographs will be located on the sides of the device in the final production. The Regulatory label will be located on the bottom metal chassis.
- 3) An approved WLAN module is also shown as a part of this system. This module is identified as RMN (Regulatory Model Number) SDGOB-1291, FCC ID: B94SGBOG1291, IC: 466D-SDGOB291
