

Description of Permissive Change

The application is prepared for FCC class II permissive change.

Detail of changes to the certified module as below:

1. Correct the MPE distance from 33cm to 20cm by taking GSM frame average power into consideration.
2. Add Host BIOS lock mechanism for enabling end-user installation.
3. Correct the typo on GPRS 1900M band EIRP power level.

The product is identical to original certified device and there is no any hardware change or modification to the device.
