Attn: OET Department

To whom it may concern:

We, Apple Inc., attest that these devices under **FCC ID**:

Model(s)	FCC ID
A3260	BCG-E8948A
A3516	BCG-E8954A
A3517	BCG-E8955A
A3518	BCG-E8956A
A3258	BCG-E8947A
A3519	BCG-E8951A
A3520	BCG-E8952A
A3521	BCG-E8953A
A3256	BCG-E8949A
A3522	BCG-E8957A
A3523	BCG-E8958A
A3524	BCG-E8959A
A3257	BCG-E8950A
A3525	BCG-E8960A
A3526	BCG-E8961A
A3527	BCG-E8962A

complies with device protocol requirements and operational restrictions for Dual Client devices (6CD).

- These devices do not support indoor subordinate (6PP) category and the maximum power does not exceed authorized value.
- These devices will only associate and connect with a Low Power Indoor Access Point, Subordinate device, or Standard Access Point and never directly link to another client device.
- These devices will always initiate transmission under the control of a Low Power Indoor AP or subordinate device or standard power AP except for brief communications before joining a network. These quick messages will only occur if the client has detected an Indoor AP,

Subordinate, or Standard Access Point operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP, it will not continually repeat the request.

- d) These devices, when associated and connected with a Low Power Indoor Access Point, Subordinate, or Standard Access Point device, will operate at a power lower as advertised by the Low Power Indoor access point, Subordinate or Standard Access Point:
 - a. Lower than or equal to the power advertised by the Low Power Indoor Access Point or Subordinate device and never above the maximum output power level allowed by the FCC grant for clients associated with indoor clients or subordinates.
 - b. At least 6dB below the power advertised by the Standard Access Point.
- e) We acknowledge that these devices are subject to and in full compliance with the device restriction listed below.
 - a. Operation of transmitters in the 5.925-7.125 GHz band is prohibited for control of or communications with unmanned aircraft systems.

Sincerely,

Abhishek Rala
