

1. Please upload Internal Photos exhibit to this application.
[Sorry I just missed this.](#)
2. FCC ID number and IC number on the label do not match the 731 or the RSP-100. Please revise either the documents or the label and upload to application.
[I have corrected the application forms to reflect the correct identifiers.](#)
3. The emission designators listed on the Form 731 do not include all the designators listed in the test report. Please explain?

[I have reconfigured the way they were presented on the Form 731. I did have them on but they were all on one line.](#)
