RE: Report of Supercede of SAR Report and label/location

This is to report that ATCB superceded the original SAR report due to test setup photos being included in it.

Also, we superceded the label/location exhibit due to the external view of the device was included.

We have uploaded a revised SAR report, a revised label/location exhibit, and new SAR test setup photos.

The applicant requested this short term confidentiality after the grant was issued.

Regards,

Marianne Bosley
