Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Please submit the Part 15B test report.
→ [Please find the attachment.](#)

2. The Operational Description lists Class 12 EDGE/GPRS capability, however, SAR was only tested in Class 10 mode. Please confirm that Class 12 mode is not implemented in the EUT.
→ The chipset supports class 12 EDGE/GPRS but the EUT does support Class 10 EDGE/GPRS only.
3. FYI: in the future, the target power levels listed in the tune-up procedure should be shown with an acceptable range (e.g., +/- 0.5 dB).
→ I'll.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,
Gregory Czumak
