**Confirmation No. EA96664**

---

Dear Sir or Madam:

In regards to the above electronic submission, made to your office on February 1<sup>st</sup> and 2<sup>nd</sup>, please be advised that on FCC Form 731, Item 12 (Equipment Specifications), we have noted the Rated RF Power Output (in watts) as ".0000000596" and ".0000000015", as the field does not accept any characters. Our factory advised us that they wished to state the following for the Rated RF Power Output (in watts):

-9  
Picture: 5.96 x 10

-9  
Sound: 1.50 x 10  
(typ)(75 ohm close)

Our facility was advised by your Ms. Bette Taube to enter the Rated RF Power Output (in watts) as stated in our electronically submitted FCC Form 731, and to advise you of the situation in this cover letter exhibit attachment.

Please do not hesitate to contact the undersigned, should you require any further information or have any questions concerning this matter.

Best regards,  
Angie Sherlock  
Office Administrator  
Product Safety Division

/as

P.S. Please note that the photographs for the above electronic application will be forwarded to your office via electronic exhibit attachment, as soon as possible. I was unable to forward the photographs in an attachment exhibit today, as the file was too large. Upon separation of these photographs, I will send the photograph attachment exhibit for your review.
