

1.2. Operational Description

The EUT is a Wireless Thin Client. It supports 1, 2, 5.5, 11Mbps in IEEE 802.11b mode and 6, 9, 12, 18, 24, 36, 48, 54Mbps in 802.11g mode. The signals are modulated by DSSS in IEEE 802.11b mode and OFDM in IEEE 802.11g mode. The number of channels is 11 in 2412-2462MHz.

This Wireless Thin Client, complied with IEEE 802.11b and IEEE 802.11g, use a high-efficiency wireless LAN adapter, which allows your computer to connect to a wireless network and to share resources, such as files or printers without being bound to the network wires. Operation in 2.4GHz, the Wireless Thin Client Wired Equivalent Protection (WEP) algorithm is used. In addition, its standard compliance ensures that it can communicate with any IEEE 802.11b and IEEE 802.11g network.
