Product Description

The SEIKO EPSON Corporation Model P120A(referred to as the EUT in this report) is a black 192-nozzles, and color 96×3-nozzles Ink jet printer that mounts the CENTRONICS parallel and RS-422 serial interface and USB(Universal Serial Bus) interface ports as standard. Optional interface boards are available.

The printing speeds are 285 CPS (characters per second) at 10 CPI (characters per inch).
The main CPU is a HD64F2357F, 48.00MHz processor.

The power rating of the EUT is AC120V, 50-60Hz, 0.7A.
