Note

• NETFLIX is available after signing up for the membership.

NETFLIX

NETFLIX Update

The system automatically displays update pop-ups whenever a new version is released.
Please delete the app and download it again.

Mirroring

Before Using Mirroring

• You can use the Screen mirroring feature to display your device screen on the system display without connecting a cable.

• Android : To use the Mirroring feature, first turn off the WiFi connection in the system.

• iOS : To use the Mirroring feature, you must first turn on the Wi-Fi in your mobile device.

Starting Mirroring

1. Press the ⌂ button → Press Mirroring .
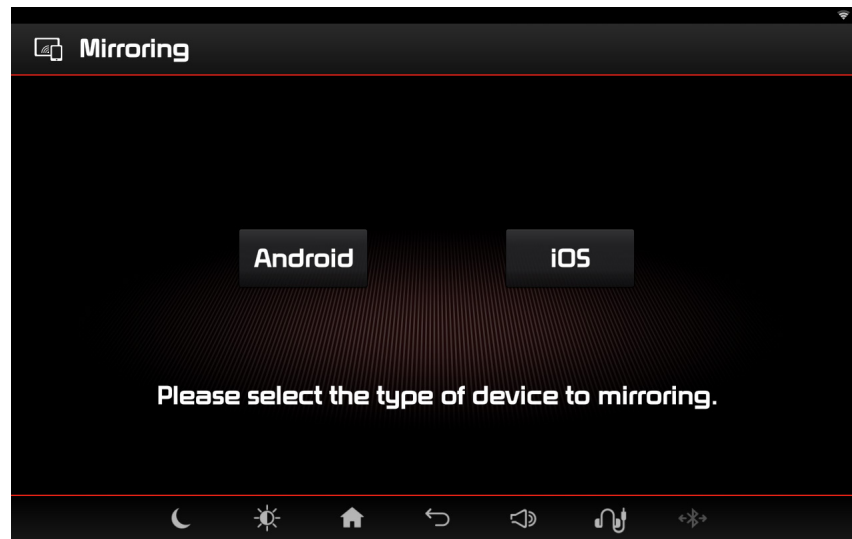

2. In your mobile device, turn on the Mirroring feature. Then find and select the system name.
Mirroring

Note

• Setting up Mirroring may differ depending on your phone model. For more information, refer to your mobile device user's manual.
• The default system name is RSE-xxxxxxxxxxxx.

3. When your mobile device is connected, the mobile device screen is displayed on the system display.

4. You can use the mobile device features through your mobile device or the system screen.

Android

iOS

Mirroring

Using Mirroring Menu

Android : To use the menu buttons while Mirroring is in use, quickly tap the top area of the Screen twice.
iOS : To use the menu button while using mirroring is in use, touch the screen.

Button	Description
1	Plays/pauses mirroring.
2	Stops mirroring.(Android)
