Attestation

Part 90.203(p) compliance

Harris attests that the user device submitted for certification in this application, the PBM-113 module, provides support for 3GPP Band Class 14 frequencies and 3GPP Standard E-UTRA release 8 with associated interfaces in order to support service and network capabilities that are documented in the Commission's Waiver Order, released on May 12, 2010, Interoperability Order, released on December 10, 2010, and 3rd Report and Order, released on January 26, 2011 and all future requirements.
