Subject: FCC ID: BV8CS700
Original Application

M/A-COM seeks an Equipment Authorization Grant for 700 MHz cell station LMR radio equipment.

The cell station is a utility pole mounted piece of equipment with no user access or adjustments. At the time of installation antenna selection is made and final check out. The unit continues operation with no operator intervention. In turn, there is an installation manual provided with this submittal.

An attestation of 700 MHz application is included along with other standard exhibits including the test report.

Confidentiality letter and Rhein Tech Laboratories, Inc. agent authorization letter to act on M/A-COM's behalf for this modification, have been provided as exhibits as well.

Thank you for your kind consideration and timely review of this new product addition to the M/A-COM, Inc. LMR product family.

Sincerely,

A handwritten signature in black ink that reads "Daryl G. Popowitch". The signature is written in a cursive, flowing style.
