Authorization & Evaluation Division
7435 Oakland Mills Road
Columbia Maryland 21046

Attention: To Whom it may concern

Subject: Type Acceptance FCC ID: BV8M803M

M/A -COM, Inc. wishes the modification of certification of the BV8M803M to include the antennas found in the attached MPE test report. There should be no change in the minimum safe distance. Nothing else has been modified. Antenna references in the original report and grant were incorrect, they should have been 0 and 3 dBd not dBi. This change is reflected in the report as well.

Please add an 11K8F1D emission designator to the grant, as the data already exist to support such in the original report.

Regards,

Bryan McWatters
