Subject: FCC ID: BV8MBS700A100

Harris seeks application approval for a Class 2 Permissive Change on the SkyMASTR 700 MHz base station.

Exhibit included is the test report. Note that this change adds an emission designator for a mode of operation intended for 12.5 kHz channelization in the 700MHz band, and the FCC grant is also to be updated with the current band plan rules, changing the current grant frequencies 764-767 and 773-776 MHz to 764-776 MHz. No components have been added or removed, nor has there been any change to PC board layout.

Confidentiality letter and Rhein Tech Laboratories, Inc. agent authorization letter to act on Harris' behalf for this filing, have been provided.

Thank you for your kind consideration and timely review.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch". The signature is fluid and cursive, with "Daryl" and "S." being more stylized and "Popowitch" being more clearly legible.

Daryl Popowitch
Regulatory Manager
