Subject: FCC ID: BV8MBS800A075

M/A-COM seeks application approval for a Class 2 Permissive Change on the above ID referenced equipment; OpenSky SKYMASTR 800 MHz base station.

Exhibits include test report, block diagrams, internal and external photos and attestation letters. The Class 2 Permissive Change is required to allow a different power amplifier unit to be used as a field service replacement. Base stations of this vintage are no longer in production; the original power amplifier unit is obsolete and can no longer be obtained. Conducted power remains the same.

Confidentiality letter and Rhein Tech Laboratories, Inc. agent authorization letter to act on M/A-COM's behalf for this change, have been provided.

Thank you for your kind consideration and timely review of this product revision.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch". The signature is written in a cursive, flowing style.
