Ref.: FCC ID BV8P800  
731 conf. No. EA569706  
CRN: 26131 and 26132

Dear Mr. Lyles,

M/A-COM, Inc. wishes to have the referenced filing modified through a Class II Permissive change, to incorporate a new emission mask. This mask will allow our P800 product to operate in a P25 mode with C4FM digital modulation, which is now becoming a wide spread standard in industry,

Measurement reports and other pertinent data has been loaded to the website for your review and consideration in granting this change.

If any questions arise, please contact me.

Sincerely,

Daryl Popowitch  
Engineering Project Manager,  
Regulatory Manager

M/A-COM, Inc. – Lynchburg, VA
